

ESTATEBOX

Thinking independently, together

EstateBox Diversity and Inclusion Statement

Bring your true self to us and we will help each other shine.

Diversity, inclusion and belonging are deeply rooted in the principle values of EstateBox and, as such, we believe in hiring employees regardless of race, religion, colour, national origin, gender expression or identity, sexual orientation, age, marital status, or disability status.

At EstateBox, we believe our strengths lay in our differences.

To achieve our best requires diverse perspectives and life experiences. We believe when our people have the freedom to be their true selves when they come to work it organically nurtures authentic relationships, creativity and candid conversations.

Diversity and inclusion also drives innovation and connects us with our customers and the community around us. We are committed to putting diversity and inclusivity at our forefront as a certainty and not a reflex, to ensure the best product and ideas are built. Alone we can do so little, together we can do anything.

And not to mention,
we are just getting started.
